

# SAFETY RED ALERT

---

## Winter Driving Danger - Sun Strike !

### Background:

The arrival of winter means that the sun rises and sets lower on the horizon. Therefore the occurrence of sun strike at sunrise and sunset is more frequent and intense. This applies to **ALL** road users and **NOT** just truck drivers!

Since many of you are travelling at these times of the day, make sure you take the proper precautions when encountering sun strike.

### Solutions:

- clean the windscreen
- make sure windscreen washer reservoir is topped up regularly
- Slow down,
- wear sunglasses
- try not to stare directly into the sun
